MEMORANDUM FOR: D/DCI/IC

SUBJECT : Comments on Murphy 54

1. To my complete non-surprise, the Commission's recommendation for an estimative drafting staff has produced divergent reactions among the NIOs. Two of my colleagues have set forth personal views, which I attach. I do not know what George Carver's view will be upon his return from leave.

2. In this situation, we might be well advised to cope with the impossibly short deadline by saying that we perceive a lot of pros and cons on this one and wish to consider the matter further.
